ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

LOCATION:

The Sumas Band occupies one reserve, Upper Sumas Reserve No. 6, in an area east of Abbotsford in the lower mainland. Water rights have been issued on this 234.6 hectare reserve.

The most recent population figures from the Ministry of Finance indicate that the Sumas Band's total population, including registered and non-registered members living on and off reserve, is 228.

The reserves of the Sumas Band are characterized by the Coastal Western Hemlock Biogeoclimatic Zone. The northwestern corner of Upper Sumas Reserve No. 6 occupies part of the Sumas Mountains and reaches to a high of 180 feet above sea level and to a low of 20 feet above mean sea level. This area experiences climate ranging from an average daily temperature of 0 degrees centigrade in January to a high of 20 degrees centigrade in July. The average annual rainfall for this area is 100 to 250 centimeters.

Water courses of significance include:

- Bristo Creek, which flows south through Upper Sumas 6.
- Sumas River, which flows northeast through the southern portion of Upper Sumas Reserve No. 6 before draining into the Fraser River.

WATER ALLOCATIONS:

There are no records of any allocations made by the Indian Reserve Commission, Order in Council of the Lieutenant Governor in Council, nor any Orders of the Board of Investigation. In addition, there are no actions to amend, cancel or record as abandoned rights under licence pursuant to provisions in the *Water Act*.. However, the water rights of the Sumas Band have been recorded or affected by one action of government over the years:

1) Granting of water licences from Federal Government application for licences for the use of water on reserves.

HISTORY, CURRENT STATUS AND NOTES:

The history of water rights, the current status of rights, and notes for the Sumas Band with respect to Bristo Creek and Sumas Creek are as follows:

OTHER INFORMATION:

Groundwater Records:

Review of records of the Groundwater Section found no evidence of wells located on Sumas Reserve No. 6. However, the provision of this groundwater information is voluntary and, therefore, cannot be assumed to be complete.

Alternate Water Sources:

The proximity of Upper Sumas Reserve No. 6 to the city of Abbotsford presents the potential for water supply to these reserves via a municipal water system.
